[1] Selection Policy
In selecting candidates for directors, with the aim of creating an ideal Board of Directors, Terumo considers the diversity of the composition of the Board in order to give the Board relative base strength with broad experience and skills (industry experience, management capability, etc.), which are necessary for the Board to engage in good discussions and decision making. Candidates for directors shall be selected in accordance with internal regulations, which stipulate the eligibility criteria, including the following:
[Internal directors]
• To have management judgement capacities and management oversight capacities from stakeholders’ standpoint
• To have excellent personality, great insight, and high ethical standards
• To have attained sufficient business results or achievements
[Independent directors]
• To be able to contribute to the improvement of corporate governance and management of the Company, and to be able to offer his/her opinions without reserve
• To have extensive experiences in management, international business, the practice of medicine or other specific areas of expertise
• To consider the diversity of independent directors and their backgrounds as far as possible, and their expertise, gender and other characteristics as appropriate
[Independent directors who serve as Audit and Supervisory Committee members]
• To have experience of playing leading roles in the fields of law or accounting with at least one candidate coming from each such field

The Nomination Committee shall discuss and propose potential candidates for directors and the appropriateness of each director’s reappointment, and present the results of these discussions to the Board of Directors. This process is intended to eliminate arbitrariness and to ensure the sound selection of candidates. If any situation arises which causes a serious concern about the performance of a director’s duties, the Committee may immediately propose to the Board of Directors that necessary steps should be taken even during one’s term of office. Independent directors shall be subject to the requirements of the Director Independence Standards. The Nomination Committee shall discuss and present the Director Independence Standards for review and approval by resolution of the Board of Directors. Each director shall concurrently hold officer positions (director, auditor, etc.) with no more than three other listed companies as a condition to serving as a director of Terumo Corporation. The reasons for selection and positions concurrently held by each candidate for director shall be disclosed in the Corporate Governance Report, Reference Materials for the General Meeting of Shareholders, or other documents as appropriate.

(10) Selection and Cultivation of Successors to the President
The Board of Directors has established the Nomination Committee as an organization overseeing the process of selecting and cultivating successors to the president in recognition of the fact that the selection of successors to the president is one of the most important duties for the Board of Directors, and the Committee’s activities are monitored by the Board of Directors. The process of selection and cultivation of successors to the president is clearly stated in internal regulations. With regard to selecting a successor to the president, the president shall propose a “Succession
Plan” listing more than one candidate and a plan for their cultivation within a specified period of time. The Nomination Committee shall consider the successor candidates in accordance with the procedures stipulated in the internal regulations.

From the point of view of cultivating future successor candidates, the president shall also submit a “Next-Generation Executives’ Development Plan” naming several persons with the potential to become future executives to the Nomination Committee within a specified period of time, and shall thereafter continue to report on the status of these candidates’ cultivation to the Committee as appropriate.

(11) Executive Remuneration

[1] Basic policy and composition

To provide appropriate motivation to enhance corporate value over the medium- to long-term, the remuneration for executive directors and executive officers shall be determined focusing on (a) appropriate risk-taking by the management and (b) the same profit awareness as shareholders.

To achieve the objective described in (a) above, we set an appropriate balance between fixed remuneration and performance-linked remuneration (bonuses).

To achieve the objective described in (b) above, restricted stocks have been adopted.

Remuneration of other non-executive directors shall be composed only of fixed remuneration.

1) Target Proportions

Remuneration for executive directors shall consist of fixed remuneration, bonuses, and restricted stock, the target percentages of which shall be 50%, 30%, and 20% of total combined remuneration, respectively. For higher ranked directors (CEO is the top), the ratios of bonuses and restricted stock to the total amount of remuneration are higher.

2) Remuneration Categories

• Fixed remuneration

To motivate directors to steadily perform their professional duties according to their responsibilities, monthly fixed remuneration is paid. The amount of fixed remuneration is determined according to each director’s role and position.

• Performance-linked remuneration (bonuses)

Annual bonuses are a form of remuneration aimed at motivating directors to achieve sustainable growth and annual performance; therefore, purpose-aligned evaluation factors are adopted. Evaluation factors consist of Companywide factors (revenue, operating profit and earnings per share (EPS)) and the performance factors for each director’s business operations (revenue and adjusted operating profit of the department(s) they oversee and other targets set for each director). The amounts of bonuses are calculated by multiplying (a) the evaluation index determined based on above evaluation factors by (b) the standard bonus amount set for each position.

• Restricted stock

For executive directors to share benefits and risks of stock price movements with shareholders and further enhance their desire to contribute to rises in stock prices and the improvement of corporate value, restricted stock is adopted. Under the concept “sharing awareness of profits with shareholders over the long term,” directors may not transfer to a third-party or otherwise dispose of restricted stock allotted to them for 30 years (or until their retirement from the position of director if earlier). Furthermore, if directors commit fraud or violate laws during their term as director, all or part of their allotted stock will be...
acquired by the Company without consideration.

The Remuneration Committee, as an advisory body to the Board of Directors, deliberates on the standard amount of fixed remuneration, bonuses and restricted stocks (stock options) for directors (excluding Audit and Supervisory Committee members) by position and the basic design of the remuneration system in light of information that includes information on comparable standards used at other companies provided by an outside research organization.

Independent directors shall account for the majority of Remuneration Committee members and the chair shall be elected from among the Committee members who are independent directors.

- Fixed remuneration: Within the remuneration limit approved at the General Meeting of Shareholders, remuneration for directors, excluding members of the Audit and Supervisory Committee, shall be decided by resolution of the Board of Directors, and remuneration for Audit and Supervisory Committee members shall be decided through discussions among the Audit and Supervisory Committee members.
- Bonuses, restricted stock (stock options): Amounts of bonuses and restricted stock (stock options) are decided by resolution of the Board of Directors, within the director remuneration limit mentioned above, after taking business results, the business environment, and other factors for each year into consideration.

(12) Training Policy
Terumo Corporation shall provide each director with opportunities to obtain relevant training such that each may fully assume their duties and acquire the knowledge required for fulfilling their roles, legal obligations, and duties as a director.

- Internal directors
  At the time of appointment, briefings by the head of the legal division shall be arranged to provide each director with the requisite knowledge of his or her obligations as a director. Opportunities for external training may also be recommended and provided if appropriate to assist the director with acquiring the requisite knowledge. After the appointment, relevant books and opportunities for participation in external training sessions shall be arranged as necessary to afford each director the opportunity to update his or her knowledge necessary for his or her service as a director.

- Independent directors
  Briefings shall be arranged to afford each independent director the opportunity to obtain the information about Terumo’s business, organization, and operations necessary to fulfill his or her duties as a director. External training sessions and other sources of information shall be made available if additional knowledge is required or updating is necessary.

3. Securing Shareholders’ Rights and Equality
(1) Securing Shareholders’ Rights
In the light of the importance of the shareholders’ rights, Terumo shall not take any action intended to jeopardize the exercise of shareholders’ rights.

- Terumo will strive to ensure that shareholders are allowed to exercise their minority rights under
the Companies Act in an efficient manner. This shall include their (a) rights to review the shareholder register and the minutes of the Board of Directors meetings; (b) rights to propose at the General Meeting of Shareholders; and (c) rights to demand an injunction or file a derivative action against directors' illegal conduct. Terumo shall include the procedures for exercising such rights in its Stock Holding Rules.

- The Board of Directors shall review the agenda of the General Meeting of Shareholders after the conclusion of such meeting. When a considerable number of votes were cast against an agenda item, even if it was finally approved, the Board of Directors shall analyze the reasons for the opposition and why so many opposing votes were cast. The Board shall discuss how to react, including how Terumo may engage in a dialogue with the shareholders. If a dialogue with shareholders occurs, the details of the dialogue shall be reported to the Board of Directors.

- The Board of Directors may make a decision about a capital policy, which may cause a change of control or significant dilution of the value of shares owned by the current shareholders, only after careful analysis of its necessity and rationale. The Board’s analysis shall be based on the understanding that such policy could harm the interests of the current shareholders. The Board shall promptly disclose any such decision it makes and explain clearly to the shareholders and other investors. The disclosure shall include an appropriate explanation of the action and the reasons for it. The Board shall consider the matter from the viewpoint of the Company’s stakeholders and, to the extent possible, place the highest weight on the opinions and views of the independent directors.

(2) General Meeting of Shareholders
Terumo recognizes that the General Meeting of Shareholders is the Company’s highest decision-making forum and affords an opportunity to have a constructive dialogue with its shareholders. Accordingly, Terumo shall provide its shareholders with an adequate environment, from the viewpoint of the shareholders, to facilitate the exercise of their rights at the General Meeting of Shareholders.

- The date of the General Meeting of Shareholders should be established on a day, that is not a peak day and morning hours should be avoided so that as many shareholders as possible may attend the meeting.

- A notice of the meeting shall be disseminated approximately three (3) weeks prior to the date of a General Meeting of Shareholders. Contents of a notice of the meeting shall be published on the TD net and the Company’s website after the Board of Directors has established the date of the meeting and before the notice of the meeting is disseminated. Any other information which may be reasonably necessary to assist the shareholders in the exercise of their voting and other rights at the meeting shall be properly provided.

- Terumo shall strive to provide an environment that facilitates the exercise of voting rights, which shall include an electronic voting platform for the electronic exercise of the voting rights. In addition, Terumo shall provide an English-language translation of the notice of the meeting to ensure equality of access to information about the meeting among Japanese shareholders and international shareholders alike.

(3) Basic Strategy for Capital Policy
Terumo strives to enhance corporate value by pursuing investment opportunities aimed at delivering return in excess of capital cost.

(4) Holding of Shares in Other Companies for Strategic Purposes

- Terumo shall exercise its voting rights taking into consideration the impact of its voting on the corporate value of Terumo and the company in which Terumo has invested.

(5) Function as Asset Owner of Corporate Pension Fund

Fund management of Terumo’s corporate pension is carried out by Terumo Corporation Pension Fund, a separate corporation. Terumo consistently assigns personnel from accounting, finance, and human resources departments with specialized expertise in asset management to Terumo Corporation Pension Fund to increase its asset management capabilities and ensure it can deliver its expected function as an asset manager. Moreover, the formulation of investment policies and operational results are monitored through discussion by the Asset Management Committee to enhance asset management activities and guarantee the soundness of these activities. Terumo also has a system that enables senior managers of majority labor unions to participate in decision-making processes regarding investment policies, etc., from the viewpoint of protecting beneficiaries. We eliminate arbitrariness and manage conflicts of interest between the beneficiaries of the corporate pension and the Company by delegating the selection of individual investees and exercise of our voting rights to individual investment agencies.

(6) Related Party Transactions

To not damage the interests of Terumo and its common shareholders, nor to raise such concern regarding transactions between Terumo and its directors or the third parties they represent, Terumo shall establish a framework as follows.

- Transactions with a risk of conflict of interest
  Any transaction between Terumo and one or more of its directors that may involve an actual or potential conflict of interest shall be reviewed and approved by the Board of Directors in accordance with the Companies Act. This procedure is detailed in the Board regulation. In addition, Terumo reviews on an annual basis if there exists any transaction between Terumo and one or more of its director or a party related to one or more directors (including an affiliate company of the director or the director’s related party).

- Transactions with third parties
  The Board of Directors established the Terumo Group Code of Conduct, which all Terumo Group associates are required to follow. The Code demands fairness and transparency in all transactions between Terumo and third parties, including customers, suppliers and shareholders. Violations of these principles should be addressed by Company management through the relevant lines of reporting. Terumo’s whistleblower system shall be available to report violations that cannot be addressed through the relevant lines of reporting.

With regard to development of products and services, Terumo formulates development guidelines with the goal of developing and delivering high-quality, market leading products and services in its quest to realize healthcare that is friendly to people. Terumo believes that delivery of such high-quality medical devices and services will lead to the advancement of healthcare and the enhancement of patients’ quality of life. In these ways, Terumo will be able to contribute to the sustainability of society.

In particular with regard to climate change risks, Terumo set a science-based greenhouse gas reduction target in line with what the latest climate science says is necessary to meet the goals of the Paris Agreement. Terumo will continue making group-wide efforts to mitigate the global challenge of climate change risks.

Compliance is essential to the sustainability of Terumo’s business. The Legal and Compliance Department shall manage the Terumo Group’s global compliance system as a part of Terumo’s overall internal control system. The Risk Management Committee shall direct Terumo’s efforts to evaluate the potential risks regarding the sustainability of the Company’s business, and the Board of Directors shall develop and operate a risk management system to address such risks.

(3) Entrenchment of Diversity as a Part of the Corporate Culture
At the Terumo Group, we strive to promote respect for each individual and each different culture. Associates are not allowed to discriminate on the basis of race, nationality, gender, religion, or disability, and violations of human rights of any kind are not permitted. Issues raised through whistle-blowers that could have broad applicability within the Terumo Group shall be shared with other relevant locations, departments, and/or business units, as the case may be. Terumo will strive to implement appropriate measures to prevent the recurrence of the violations and to enhance the awareness of compliance matters within the Terumo Group. Terumo endeavors to expand the whistle-blowing system and its operation because it considers such a system to be an important tool for reducing violations of law and policy, thereby contributing to Terumo’s sustainable growth.
